

WorkSafe® Razor™ LED

The WorkSafe line is a professional line of safety rated flashlights serving the most challenging industries. The Razor LED continues the WorkSafe's proud heritage of delivering powerful light safely; this time, with an *INTRINSIC SAFETY RATING*.

bright powerful lightweight

Bright Star introduces the WorkSafe® RAZOR™ LED!

The Razor LED Flashlight exhibits a piercing beam supported by its deep dish reflector, resulting in 1850 lux at 6 feet. A Zone Zero safety classification makes it the safest of its kind. Its sleek design is ergonomically constructed with a knurled handle that enables a maximum grip and a conveniently located push button switch for easy On/Off. All this from a light that can fit in your pocket.

Grab one and feel the difference!

A super efficient, intrinsically safe, long running LED: all in one **cutting edge** package

Using advanced LED technology, the *Zone Zero safety rated* Razor produces a brilliant, piercing beam for use in the most demanding environments.
